Decisions and requirements by the planning board shall be considered 73 consistent with local needs if they are reasonable in view of the regional need for low or moderate income housing considered with the number of low and moderate income persons in the city or town affected and the need to protect the health or safety of the occupants of the proposed housing or of the residents of the city or town, to promote better site and building design in relation to the surroundings, or to preserve open spaces and the quality of drinking water supply and water resources; and if such decisions and requirements are applied as equally as possible to both subsidized and unsubsidized housing. Decisions and requirements shall also be deemed consistent with local needs when imposed by a planning board after comprehensive hearing in a city or town where:

(1) low or moderate-income housing exists which is at least 10 per cent of the year round housing units reported in the most recent federal decennial census of the city or town; or on sites 84 comprising one and one-half per cent or more of total land area zoned for residential, commercial 85 or industrial use;

- 86 (2) the development is large scale for the city or town in which it is proposed. A proposed development shall be large scale if: (a) in a city or town which has a total number of 7,500 or 87 more year round housing units as enumerated in the most recent federal decennial census, the application for a comprehensive permit involves construction of more than 300 housing units or 90 a number of housing units equal to or greater than 2 per cent of all housing units in the city or town, whichever number is greater; or (b) in a city or town which has between 5,000 and 7,500 92 year round housing units exclusive, as so enumerated, the application for a comprehensive 93 permit involves construction of more than 250 housing units; or (c) in a city or town which has 94 between 2,500 and 5,000 year round housing units inclusive, as so enumerated, the application 95 for a comprehensive permit involves construction of more than 200 housing units; or (d) in a city or town which has less than 2,500 year round housing units, as so enumerated, the application for a comprehensive permit involves construction of more than 150 housing units; or
- (3) the city or town has made recent progress toward attaining its affordable housing 99 threshold. Recent progress toward its affordable housing threshold shall mean that the number of housing units that have been created during the 12 months prior to the date of the comprehensive permit application and that are eligible to be included on the subsidized housing inventory equal to or greater than 2 per cent of the city or town's total year round housing units as enumerated in the most recent federal decennial census; or

- (4) 12 months has not elapsed between the date of application for a comprehensive permit and the date of the most recent pendency of a prior application for a variance, special permit, 106 subdivision or other approval related to construction on the same land if that prior application included no provision for low or moderate income housing, provided that any such application 107 shall not be considered a prior application if it concerns only insubstantial changes to an existing use;
- 110 (5) the city or town has adopted an affordable housing plan approved by the department pursuant to which there is an increase in its number of low or moderate-income housing units eligible for inclusion on the subsidized housing inventory by at least one-half of 1 per cent of total year round housing units every calendar year until housing needs are met pursuant to this chapter, subject to paragraphs (a) and (b). 114
- 115 (a) The affordable housing plan shall be based upon a comprehensive housing needs assessment, which shall include an analysis of the most recent federal decennial census data of the city or town's demographics and housing stock, development constraints as well as of the city or town's ability to mitigate them, and the city or town's infrastructure. 118
- 119 (b) The affordable housing plan shall address the matters set out in guidelines adopted by 120 the department, including:—

- (ii) the strategy by which the city or town will achieve its housing goals based upon its comprehensive needs assessment;
- (iii) the characteristics of projects the city or town prefers that are consistent with the guidelines established by the department for smart growth and development including, but not limited to, redevelopment and adaptive reuse, cluster housing, higher-density housing, transit or pedestrian-oriented development which provides access to jobs and services, resource efficient buildings, and development in locations with existing infrastructure;
- (iv) a description of the use restrictions which shall be imposed on lower moderateincome housing units to ensure that each unit will remain affordable to and occupied by low or moderate-income households;
- (v) the identification of zoning districts or geographic areas which permit residential uses which the city or town proposes to modify or has created for the purposes of low or moderateincome housing developments;
- (vi) the identification of specific sites or characteristics of sites for which the city or town will encourage the filing of comprehensive permit applications pursuant to section 21; and

(c) Upon submission to the department, the plan shall also be submitted to the regional

(vii) city or town owned parcels, if any, for which the city or town commits to issue requests for proposals to develop low or moderate-income housing.

- planning district, commission, or council of governments within such project is located. The district, commission, or council of governments shall be as established pursuant to this chapter or the Martha's Vineyard Commission, as described in Chapter 831 of the Acts of 1977, the Nantucket Planning and Economic Development Commission, as described in Chapter 561 of the Acts of 1973, the Cape Cod Commission, as described in Chapter 716 of the Acts of 1989, the Franklin Regional Council of Governments, as described in Chapter 151 of the Acts of 1996, or the Northern Middlesex Council of Governments, as described in Chapter 420 of the Acts of 1989, or any other regional planning district hereafter established by the general court. The regional planning district shall have 30 days to comment to the department on the implications of the plan for housing need, growth and development concerns, and other relevant matters. Within 90 days after its submission to the department by a city or town's chief executive officer, the
- department shall approve the plan if it meets the requirements specified herein, otherwise, it shall
- 154 disapprove the plan. The department shall notify the city or town of its decision to either approve
- or disapprove a plan in writing. If the department disapproves a plan, the notification shall
- 156 include a statement of reasons for the disapproval. A city or town that originally submitted a plan

that had been disapproved may submit a new or revised plan to the department at any time. A 158 city or town may amend its plan from time to time if the department approves the amendment. If 159 the department fails to mail notice of approval or disapproval of a plan or plan amendment within 90 days after its receipt, the plan or plan amendment shall be deemed to be approved.

161 (d) The department shall certify annually whether a city or town is in compliance with an 162 approved plan. The department shall determine whether a city or town is in compliance within 30 days of receipt of a city or town's request for such a certification. A city or town shall be in 163 164 compliance if it has reached the benchmarks established in its approved plan and has made all changes necessary to accommodate future planned development. If the department determines 165 166 the city or town is in compliance with its plan, the certification shall be retroactive to the date the certification was requested. Provided further, if a city or town fails to achieve the goals established in the approved plan and as documented on the subsidized housing inventory the city or town shall not be in compliance with its plan and shall submit a new plan for certification by the department. 170

- (e) Units which were created and which became eligible to be counted toward a city or town's affordable housing threshold between August 1, 2002 and December 31, 2002 shall be 172 173 credited toward the city or town's affordable housing threshold for the first year of planned 174 production under an approved affordable housing plan, regardless of the date the plan is submitted to or certified by the department. An approved plan shall take effect for the purpose of the definition of consistent with local needs in this section only when the department certifies 176 that the city or town has approved permits resulting in an initial annual increase in its low-or 177 moderate-income housing units of at least one-half of 1 per cent of total year round housing units in accordance with its plan. It is the responsibility of the city or town to request such certification 179 180 from the department. Once the department has made such a certification of initial compliance and subsequent annual certifications of compliance:—
 - (1) The board may, in its discretion, deny, or approve with conditions, any comprehensive permit applications for the period of 1 year from any certification, and such denial or approval with conditions shall be deemed consistent with local needs; or, alternatively,
 - (2) The board may, in its discretion, deny or approve with conditions any comprehensive permit applications for the period of 2 years from any certification, if, in the year it was certified, the city or town has increased its low or moderate-income housing stock by at least .5 per cent of total year round housing units in a manner consistent with the plan, or alternatively,
- 189 (3) The board may, in its discretion, deny, or approve with conditions, any comprehensive permit applications for the period of 3 years from any certification, if, in the year 190 it was certified, the city or town has increased its low or moderate-income housing stock by at 192 least .5 per cent of total year round housing units in a manner consistent with the plan; or

193 (6) the board has approved 3 or more comprehensive permits, at least 3 of which contain 194 20 or more housing units each within 12 months preceding the filing of an application for a comprehensive permit and those permits have become final. The board shall have the authority 195 196 to choose among multiple applicants which comprehensive permits will be accepted.

197 A developer that has requested a zoning change and that request has been accepted by the town meeting or the city council may not seek a 40B approval for one year following the zoning 198 199 change.

Such regulatory agreement shall be recorded or filed prior to the beginning of construction of the land records with the registry of deeds or land court in the registry district or 209 210 district office of the land court in which the project is located;

 - (2) Fundability shall be established by submission of a written determination of project eligibility by a subsidizing agency as follows:
 - (i) A determination of project eligibility shall include: (A) the name and address of the applicant; (B) the address of the site and site description; (C) the number and type, either homeownership or rental, of housing units proposed; (D) the name of the housing program or programs under which project eligibility is sought; and (E) relevant details of the particular project if not mandated by the housing program, including the percentage of units for low or moderate-income households, income eligibility standards, the duration of use restrictions

In addition, a representative from a public or 268 quasi-public housing agency, or a regional planning agency within the regional planning district or its designee knowledgeable with respect to chapter 40B may provide technical assistance on 270 topics including, but not limited to, site design and density, open space, marketing, use restrictions, allowable costs and profit limitations. - (vii) An applicant which has obtained a determination of project eligibility shall be 278 presumed to be eligible to submit an application for comprehensive permit or to file or maintain an appeal before the committee. Nothing set forth in this section shall be deemed to confer upon any city or town, or any of its boards, committees, commissions or officials, or upon any other 280 person the right to appeal or judicial review in any form the determination of project eligibility 282 by the subsidizing agency, it being intended that the rights of appeal conferred by sections 21 and 22 shall be the exclusive remedy for any party aggrieved by the issuance or denial of any comprehensive permit hereunder.

An applicant may proceed under alternative financing programs if the application to 296 the board or appeal to the committee so indicates and if full information concerning the project under the alternative financing arrangements is provided.
 - (5) Failure of the applicant to fulfill any of the requirements in this section may be raised by the housing appeals committee, the board, or a party at any time, and shall be cause for dismissal of the application or appeal. No application or appeal shall be dismissed, however, unless the applicant has had at least 60 days to remedy the failure.

(b) In order to appeal to the committee, an applicant shall have applied to the board for a 304 comprehensive permit in accordance with section 21 of this chapter and shall have been denied such permit or shall have been granted such permit with conditions which it alleges make the building or operation of such housing uneconomic.
